Find The Area Of A Square:

Say It! Write It! Repeat It!

E) What is the area of a right square whose side is 7 in.?
Since this is a square each side will be 7 in.

\[ 7 \times 7 = 7^2 \]
\[ 7 \times \_\_\_ = \_\_\_ in. \]

F) What is the area of a right square whose side is 8 in.?
Since this is a square each side will be 8 in.

\[ 8 \times 8 = 8^2 \]
\[ 8 \times \_\_\_ = \_\_\_ in. \]

G) What is the area of a right square whose side is 9 in.?
Since this is a square each side will be 9 in.

\[ 9 \times 9 = 9^2 \]
\[ 9 \times \_\_\_ = \_\_\_ in. \]

H) What is the area of a right square whose side is 10 in.?
Since this is a square each side will be 10 in.

\[ 10 \times 10 = 10^2 \]
\[ 10 \times \_\_\_ = \_\_\_ in. \]

I) What is the area of a right square whose side is 11 in.?
Since this is a square each side will be 11 in.

\[ 11 \times 11 = 11^2 \]
\[ 11 \times \_\_\_ = \_\_\_ in. \]
